ERRATUM

In the article by N. Y. Delyagin et al., "Magnetic Hyperfine Structure of the Gd¹⁵⁵ Levels in Metallic Gadolinium and in the Intermetallic Compound GdAl₂" *Soviet Phys. JETP* **24**, 64 (1967), in the second paragraph of the Introduction (right-hand column, 14th line from the bottom), the phrase "temperature of liquid helium" should read "temperature of liquid nitrogen." This is a translation error and does not appear in the original Russian.
